

Music

Kitchen Spoon Music

What You'll Need:

Old spoon

Metal can

Metal kitchen grater

Run a spoon up and down the ridges of a metal can. You'll get a nice sound. Try sliding it across all the textures of a metal kitchen grater. (Be careful not to slide your fingers on the grater!)

Think of other kitchen objects that you could use with a spoon song using all these instruments, and write your own lyrics.

Then perform your musical melody for your family.
